

FraudLens

Stop the scam before the money moves — real-time fraud decisions for mobile money, explained in Bangla and reviewed by people.

Customer validation survey (3 respondents per sheet)

System: FraudLens | Purpose: measure real scam exposure and acceptance of warn / step-up / hold interventions | Duration: ~8 minutes | Who: adult (18+) personal MFS users (bKash, Nagad, Rocket, etc.)

Never record: name, phone, wallet number, PIN, OTP, NID, or account balance. If someone starts to say a PIN/OTP, stop them. Answers are anonymous and used only in aggregate.

Consent (read aloud before any question)

আসসালামু আলাইকুম। আমরা FraudLens নামে একটি ছাত্র প্রকল্পের পক্ষ থেকে এসেছি। আমরা মোবাইল ব্যাংকিং (যেমন বিকাশ, নগদ, রকট) প্রতারণা কমানোর একটি পদ্ধতি নিয়ে কাজ করছি। এতে প্রায় ৮ মিনিট লাগবে। আমরা নাম, ফোন, অ্যাকাউন্ট, পনি বা ওটপি জানতে চাইব না। উত্তর বনোমে রাখা হবে। অংশ নেওয়া আপনার ইচ্ছা। আপনি কি অংশ নতি রাজি আছেন?

If consent = no: thank them and stop. If they lost money: mention provider helpline (resolve within 10 working days) and Bangladesh Bank CIPC.
